

Southridge Homes

Kevin Sokol, Principal

Your builder. Your neighbor.

Chaparral Pines homeowners have chosen Southridge Homes to build their custom home in the pines more than any other builder. In fact, Southridge owner Kevin Sokol was so impressed with the community, he built a home for himself at Chaparral Pines and is a longtime club member. In business since 1995, Southridge is a highly respected builder of luxury estates not just in Payson, but throughout Arizona.

Personalized service

Southridge Homes begins each project by taking the time to understand the unique tastes and desires of each client. Then, the company recommends a gifted architect most capable of satisfying the customer's design and lifestyle preferences. For many, such a custom home is a once-in-a-lifetime proposition that deserves unwavering personal attention. That's why Southridge encourages its customers to participate as much as possible in the design process. And the company is always willing to offer its expertise to help customers choose just the right finishing touches for their home.

Enhancing the mountain lifestyle

Southridge Homes designs typically gravitate toward Mountain Contemporary – traditional wood frame, natural stone and cedar siding. To date, Southridge has built more than 40 homes in Chaparral Pines, as well as eight in its sister community, The Rim Golf Club.

Contact the Chaparral Pines Sales Center today for more information on these custom homes.
